28th June, 2023

Dear Prospective Consultants,

MALAWI NRW WATER EFFICIENCY PROJECT

PREPARATION OF LUNYANGWA DAM SAFETY MANAGEMENT PLAN **(NRWB/MZUZU/C13)**

CLARIFICATION

Following a request for clarifications from one of the prospective consultants, we clarify as follows:

No.	Query	Clarification
1	Does the TOR apply to the dam after it has been raised and is the input data available?	Yes, the TORs apply to the dam after it has been raised. The Client shall provide the Consultant with all the with the data in its possession.
2	Potential Failure Modes Analysis (PMFA) is not mentioned in the TOR. Has PFMA been carried out already on the raised dam (Includes a workshop between consultant and at least dam owner or operator staff)	The PMFA is included in Clause 3. Scope of Works, c. Dam Safety Inspection plan. The prospective consultant shall be required to carry out the PMFA.

Yours faithfully,

Eng. C.B. Mwafulirwa
DIRECTOR OF INFRASTRUCTURE DEVELOPMENT
FOR: CHIEF EXECUTIVE OFFICER
